

Doxa Heritage Videography

WEDDING MOVIE DETAILS

Custom Wedding Movies starting at \$3,000

What can you expect from Doxa Heritage Wedding Productions? The following are what we include to make every Wedding Film the best it can be:

In Preparation

- **Wedding Movie Design Session**

We love sitting down with our Brides and Grooms to “get a feel” for personality, style, and preferences. This also gives us an opportunity to know what to expect on the Wedding Day and to plan what the overall production is desired to look like. Of course, your Mom, Coordinator, Maid of Honor, or any other key planner of your Event is welcome, as well.

- **Wedding Rehearsal Attendance**

It is crucial for us to attend your rehearsal in order to assess lighting, determine the best camera placement, prepare for setting up audio equipment, and gain an overall understanding of what the ceremony will entail. It is also the time we introduce ourselves to those who are involved in your wonderful day.

Wedding Movie Production

- **Wedding Day Coverage**

This includes capturing footage of the *Pre-Ceremony* time (Bride & Groom preparation time), the *Ceremony*, and the *Reception*

- **Highlight Reel**

The Highlight Reel includes special moments from your day and is what you will share with family and friends the most. The Highlight Reel can also be made available for online viewing.

- **Enhanced Introduction**

A beautiful segment that segues from the Highlight Reel to the actual Ceremony. It may include shots of the outside of your ceremony location, wedding invitation or program, floral arrangements, interior of the sanctuary, your guest book, etc.

- **Fully-edited Production in Cinematic Style**

Whether you choose the short-form or long-form Ceremony version (or both) for your wedding production, you will receive a “stylized” movie of your day that is completely and artfully edited. This results in a beautiful production that is extremely “watchable” and enjoyable.

- **Five DVD Copies with Custom Interactive Menus, DVD Labels, and Premium Cases**

Our DVD menus are interactive with segment selection and chapter markers. Both the DVD menu and label are designed using an image(s) of the Bride and Groom for the artwork.

We will create a personal web-page for you that includes portions of your wedding day. We have found that our Brides and Grooms love sharing online video clips of their day with family and friends.

We jewelbox our DVD's for our clients. Each DVD case is elegantly designed using a number of poignant production stills from your wedding celebration. We make a point to coordinate our use of script with what you've chosen for your wedding invitation and program. A collage of stills is included with your DVD case, and is a special way to remember some of the many details of your wedding day.
