

DOXA HERITAGE VIDEOGRAPHY

WEDDING MOVIE DETAILS

Documentary-style Edit \$1,595

*What can you expect from Doxa Heritage Wedding Productions?
The following are what we include in your documentary-style wedding movie:*

Wedding Movie Production

1. **Enhanced Introduction**

This is a beautiful opening segment that introduces the viewer to the actual Ceremony. It may include shots of the outside of your ceremony location, wedding invitation and/or program, floral arrangements, interior of the sanctuary, your guest book, etc.

1. **Fully-edited 3 Camera Ceremony**

Your wedding movie will be captured with 3 professional cameras. The results are an elegant production that is extremely “watchable” and enjoyable. We segue from the Enhanced Introduction to the actual Ceremony with clips of musicians playing, guests being seated, etc.

Audio is professionally captured with wireless microphones. Your Reception includes dances, cake-cuttings, and all the special events that happen at your wedding celebration.

Reception - coverage time 3 hours maximum unless prior arrangements are made

1. **Three DVD Copies with Custom Interactive Menus, DVD Labels, and Premium Cases***

Our DVD menus are interactive with segment selection and chapter markers. Both the DVD menu and label are designed using an image(s) of the Bride and Groom for the artwork.

*We also offer the option of jewelboxing DVD's for our clients. Each DVD case is elegantly designed using a number of poignant production stills from your wedding celebration. And as always, we make a point to coordinate our use of script with what you've chosen for your wedding invitation and program.
